

## *Coal Class And Color Blacks In Southern West Virginia 1915*

### **Coal Class And Color Blacks**

Black is the darkest color, the result of the absence or complete absorption of visible light. It is an achromatic color, literally a color without hue, like white and gray. It is often used symbolically or figuratively to represent darkness, while white represents light. Black and white have often been used to describe opposites; particularly truth and ignorance, good and evil, the Dark Ages ...

### **Black - Wikipedia**

People have worked as coal miners for centuries, but they became increasingly important during the Industrial revolution when coal was burnt on a large scale to fuel stationary and locomotive engines and heat buildings. Owing to coal's strategic role as a primary fuel, coal miners have figured strongly in labour and political movements since that time.

A March 2019 study published in the Proceedings of the National Academy of Sciences (PNAS) found whites experience 17 percent less pollution caused by their consumption of goods and services. On the other hand, Blacks and Hispanics experience 56 percent and 63 percent, respectively, more pollution than their consumption would generate.

RACE, CULTURE, AND EQUALITY 1 by Thomas Sowell. During the 15 years that I spent researching and writing my recently completed trilogy on racial and cultural issues, 2 I was struck again and again with how common huge disparities in income and wealth have been for centuries, in countries around the world-- and yet how each country regards its own particular disparities as unusual, if not unique.

Thanks, OP. I've worked with a lot of the FSA photos, but before now have only ever seen a scant few of the color slide images. %0D %0D The Brocton, Mass. newspaper office (#6) and Stonington, Connecticut (#2) are terrific, but then lots of the images are. %0D %0D Excepting the shots of pure misery, the human subjects are so much more interesting when merely seeing a camera wasn't an instant cue ...
