

Open University Maths Degree

Open University Maths Degree

A mathematics degree can also give you the skills and knowledge to progress on to higher-level study - for example, an MSc in Mathematics (F04), and then even a PhD. Many graduate-level jobs are open to graduates of any discipline - some may require further study, training and/or work experience beyond your degree.

Q31 | BSc (Hons) Mathematics | Open University

Career prospects for Open University mathematics and statistics graduates Mathematics and statistics graduates are equipped with skills and knowledge in demand in fields such as finance, accountancy, education, engineering, science, defence, the pharmaceuticals industry and business.

Mathematics and statistics degrees - The Open University

Equivalent to the first third of an honours degree. Study for interest or career development. Shows that you can study successfully at university level. Count it towards further qualifications such as a foundation degree, DipHE or honours degree.

Mathematics and Statistics Courses | Open University

Honours degrees. Also known as an undergraduate or bachelors degree. Internationally respected, universally understood. An essential requirement for many high-level jobs. Gain a thorough understanding of your subject - and the tools to investigate, think critically, form reasoned arguments, solve problems and communicate effectively in new contexts.

Distance and online courses | The Open University

Interesting question I would say that in general the Open University maths course equates to about 2/3 to 3/4 of a full degree. Obviously it depends on what options you choose. However if you compare with Cambridge for example it is clear that the OU does not offer as wide a range of choices as Cambridge or any Russell group university.

Open University Maths, Compared with Other Universities - From GCSE Maths, to Rocket Scientist...

Free courses Produced by The Open University, a world leader in open and distance learning, all OpenLearn courses are free to study. We offer nearly 1000 free courses across 8 different subject areas.
