Ageing or aging (see spelling differences) is the process of becoming older. The term refers especially to human beings, many animals, and fungi, whereas for example bacteria, perennial plants and some simple animals are potentially biologically immortal. In the broader sense, ageing can refer to single cells within an organism which have ceased dividing (cellular senescence) or to the ...

Karma Q & A, compiled by Ṭhānissaro Bhikkhu. (revised Dec. 15, 2018) Kamma and rebirth are often understood to be teachings of fate and helplessness in the face of unknowable influences from the past. Instead of teaching fate, The Buddha's teachings on kamma and rebirth are empowering, showing how people can develop skills in the present that will lead to the end of suffering.
